

LE VERRE DE VIN – WINE PRESERVATION SYSTEM

	Description	Packing	Packing & Price per Unit
1		<p>Le Verre de Vin</p> <p>Professional Wine Care for Still Wines</p> <p>The still wine only or “single” system preserve an unlimited number of opened bottles of wines. Each use of the system takes just 2-5 seconds during which time a precisely controlled vacuum is created within the bottle. Control of the vacuum level is essential to ensure that the maximum period of preservation is achieved without any damage to the subtle structure of the still wine. This classic system is designed to be mounted at eye level.</p>	THB 150,000
2		<p>Le Verre de Vin</p> <p>Professional Wine Care for Still & Sparkling Wines</p> <p>The still wine and sparkling wine or “dual” system preserves an unlimited number of opened bottles of still wine, sparkling wine and champagne. Still wines are preserved in the same way as the single system, sparkling wines and champagnes are uniquely preserved by the introduction of a calibrated infusion of carbon dioxide. Within 2-4 seconds Le Verre de Vin creates a precise pressure equilibrium within the bottle thereby ensuring the natural fizz remains locked into the wine.</p>	THB 175,500
